

DANIEL KALUTU

SOFTWARE ENGINEER

Email: kalutudaniel@gmail.com | **Github:** github.com/Kalutu | **LinkedIn:** linkedin.com/in/kalutu-daniel

EDUCATION

Technical University of Mombasa

Bachelor of Science Computer Science

Mombasa, Kenya

Sept 2020 – Aug 2024

EXPERIENCE

Software Engineer Intern

Eujim Solutions Limited

Nairobi, Kenya

Sept 2023 – Nov 2023

- Participated in the full software development lifecycle of Document Management System, from requirements gathering to coding, testing, and deployment.
- Collaborated with the development team to implement new features for a web application using Django framework.

PROJECTS

Weather Application

- A mobile application that provides users with real-time weather information, including the current weather, upcoming forecasts, and details for specific cities. Built with React Native, it offers a cross-platform solution for both iOS and Android devices.

Ticket Management System

- This is a web application built with Next.js, Mongo DB, and Tailwind CSS. It serves as a ticket management system, providing users with the ability to create, update, and delete tickets, facilitating efficient communication and issue resolution.

SKILLS

Languages: JavaScript, Nodejs, Python, SQL.

Frameworks: React, Express, Nextjs, Django, React Native.

Databases: Mongo DB, MySQL, PostgreSQL.

Tools: VS Code, Postman, Git and Github
